

**Noticing changes in thinking or memory
but unsure of next steps?**

BRAINLOVE

COGNITIVE & BRAIN HEALTH FOR AGING

STEP 1: BRAIN TUNE-UP INITIAL EVALUATION

Every new patient starts with a comprehensive evaluation that brings clarity to cognitive changes, uncovers contributing factors, and defines a clear path forward.

What's Included:

- Rapid access to care
- Medical Records & Imaging Review
- Brief Neuropsychological Assessment (90 min)
- Extended Evaluation with Dr. Cabral (90-120 min)
- Personalized Diagnostic Plan
- Safety & Function Assessment
- Optional Alzheimer's APOE Genetic Testing Interpretation
- Follow-Up Results Visit (60 min)
- Personalized Brain Health Report
- Care Partner Involvement Throughout the Process

Who This Is For:

- ★ Older adults noticing memory or thinking changes
- ★ Those seeking clarity about possible Mild Cognitive Impairment, Alzheimer's, Lewy Body, or Frontotemporal Disease
- ★ Patients considering advanced diagnostics or anti-amyloid therapies
- ★ Families who want a comprehensive, coordinated plan, not fragmented opinions

Investment: ~~\$2,450~~ Current Promotion 20% Off = **\$1,960**

When Brain Aging Changes Life, We Get to Work.

BRAINLOVE

BRAIN TUNE-UP INITIAL EVALUATION

What Makes BrainLove Different

High-touch. High-tech. High standards.

We integrate advanced neurological expertise with holistic insight addressing brain biology, cognitive function, emotional health, daily life, and meaningful living.

Meet Dani Cabral, MD

BrainLove Founder
Brain Aging Specialist
Dual Board-Certified Neurologist & Psychiatrist

Dr. Cabral has more than 15 years of experience caring for individuals and families affected by Alzheimer's disease and related conditions. Her work integrates advanced neurological care with an understanding of the emotional, behavioral, and relational changes that accompany cognitive illness.

She founded BrainLove to provide a coordinated, responsive, and uplifting model of care that supports not only the individual, but also the family navigating change alongside them.
